

SYED SHOAIB ALI

Data Scientist | Data Analyst | FrontEnd Developer

📞 9392553879 | shoaibsyed2020@gmail.com | [LinkedIn](#) | [Github](#) | [Kaggle](#)

Hyderabad, Telangana

SUMMARY

Aspiring Data Scientist with strong skills in data analysis, machine learning, and data visualization, along with experience in frontend development for building interactive, user-friendly applications. proficient in Python, Pandas, Numpy, Matplotlib, EDA, and data preprocessing. Motivated fresher with a passion for delivering end-to-end, data-driven solutions.

EXPERIENCE

Data Scientist Intern @ AI Variant

ExcelR EdTech. [Jun – Dec 2025]

- Performed Data cleaning, Preprocessing, and EDA using Python (Pandas, Numpy).
- Built and evaluated Machine Learning models for predictions and classification tasks.
- Applied Feature Engineering and Model Tuning to improve performance metrics.
- Visualized insights using Matplotlib to support data-driven decision making.

Data & Business Analytics (Micro degree program)

JobaajLearnings.

- Gained hands on experience in Data Analysis using Python, Excel, and SQL for data extraction, cleaning, and transformation.
- Created interactive dashboards and reports using Tableau and Power BI to visualize KPIs and business insights.
- Applied statistical analysis and exploratory data analysis (EDA) to solve business-oriented problems.
- Worked with Generative AI tools for data insights, automation, analytical support.

PROJECTS

Solar Power Generation Predictions

Machine Learning Project [\[Visit\]](#)

- Developed a ML regression model to predict solar power generation using weather and environmental features.
- Performed data preprocessing, feature analysis, EDA to identify key factors impacting energy output.
- Build and deployed an interactive Streamlit web application for real-time predictions.
- Strengthened skills in python, data analysis, model evaluation, and ML deployment.

Alzheimer's Disease Classification Prediction System

ML Classification Project [\[Visit\]](#)

- Developed an end-to-end Alzheimer's Disease Risk Prediction system using XGBoost, targeting early identification of cognitive decline based on clinical, behavioral, and lifestyle features.
- The objective was to support early screening and risk assessment through probability-based predictions.
- Performed EDA, feature selection, scaling, and model optimization, followed by deployment of a responsive Streamlit web application.
- Enabled real-time inference with reproducible ML pipelines and healthcare-focused UI design.

EDUCATION

Bachelor of Technology in Computer Science [2021 – 2025]

Mahaveer Institute of Science and technology,

Affiliated to Jawaharlal Nehru Technological University of Hyderabad (JNTUH)

Hyderabad, Telangana.

SKILLS

Programming & Scripting Languages: Python, SQL, Java, HTML, CSS, JavaScript

Data Analysis & Machine Learning: Data cleaning & preprocessing, ML algorithms, Classifications & Regression, Model Evaluation

Libraries & Frameworks: Pandas, Numpy, Scikit-learn, Matplotlib, Seaborn

Visualizations Tools: Tableau, Power BI, Excel, Looker Studio. Big Data : Spark, Hadoop

Deep Learning: CNN, ANN, Gen AI

CERTIFICATION

Data Science for AI variant – ExcelR

Data & Business Analytics Micro Degree [Python, SQL, Excel, Tableau, Power BI, Gen AI] – JobaajLearnings
