

SYED SHOAIB ALI

Data Scientist | Data Analyst | ML Engineer

📞 9392553879 | shoaibsyed2020@gmail.com | [Portfolio](#) | [LinkedIn](#) | [Github](#) | [Kaggle](#)

Hyderabad, Telangana

SUMMARY

Computer Science graduate with hands-on experience in machine learning, data analysis, and predictive modeling. Skilled in Python, SQL, and data visualization tools such as Power BI and Tableau. Experienced in building end-to-end ML pipelines including data preprocessing, feature engineering, model training, and deployment using Streamlit. Passionate about applying AI and data-driven insights to solve real-world problems in business and technology environments.

EXPERIENCE

Data Scientist Intern

AI Variant. [Jun – Dec 2025]

- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python (Pandas, NumPy)
- Built machine learning models for classification and regression tasks using Scikit-learn
- Applied feature engineering and hyperparameter tuning to improve model performance.
- Visualized insights using Matplotlib and Seaborn to support data-driven decision making.
- Worked on real-world datasets to build predictive models and analytical solutions

Data & Business Analytics (Micro degree program)

JobaajLearnings.

- Gained hands on experience in Data Analysis using Python, Excel, and SQL for data extraction, cleaning, and transformation.
- Build interactive dashboards and reports using Tableau and Power BI to visualize KPIs and business insights.
- Performed Exploratory Data Analysis (EDA) and statistical analysis to identify patterns and trends in datasets.
- Utilized Generative AI tools for data insights, reporting automation, and analytical assistance.

PROJECTS

Solar Power Generation Predictions

Machine Learning Project [\[Visit\]](#)

- Developed a ML regression model to predict solar power generation using weather and environmental features.
- Conducted exploratory data analysis and feature engineering to identify important variables.
- Evaluated models using R^2 score, RMSE, and MAE metrics. Deployed on Streamlit web application for real time prediction.
- Strengthened skills in python, data analysis, model evaluation, and ML deployment.

AI Audio Forensics System (Deepfake Detection using CNN + Signal Processing) [\[Visit\]](#)

- Developed an end-to-end audio deepfake detection system using CNN-based spectrogram analysis and statistical audio features (MFCC, ZCR, spectral metrics).
- Performed data preprocessing, feature engineering, and exploratory analysis on audio signals to identify patterns indicative of synthetic manipulation.
- Built a hybrid ML pipeline combining deep learning with rule-based scoring to improve model interpretability and reliability.

EDUCATION

Bachelor of Technology in Computer Science [2021 – 2025]

Mahaveer Institute of Science and technology,

Affiliated to Jawaharlal Nehru Technological University of Hyderabad (JNTUH)

Hyderabad, Telangana.

SKILLS

Programming Languages: Python, R Programming, SQL, HTML,XML, CSS, JS

Machine Learning: Data cleaning & preprocessing, ML algorithms, Classifications & Regression, Model Evaluation

Libraries : Pandas, Numpy, Scikit-learn, Matplotlib, Seaborn, tensorflow

Data Visualizations Tools: Tableau, Power BI, Excel, Looker Studio, MLOPs

Deep Learning: NLP, CNN, ANN, Gen AI | . Big Data : Spark

CERTIFICATION

Data Science Internship for AI variant – ExcelR

Data & Business Analytics Micro Degree [Python, SQL, Excel, Tableau, Power BI, Gen AI] – JobaajLearnings

Deloitte Australia Data Analytics Job Simulation on Forage [April 16, 2026]
